C	NaturePep® Amaranth	Water, <i>Amaranthus caudatus</i> Seed Extract	1.00	Tri-K
C	Capalgin	<i>Chondrus crispus</i> Extract	1.00	Exsymol
C	Sandalwood Fragrance	-	0.20	-

### Method:

- Add Phase A to a beaker and position under an overhead mixer
- To a separate beaker, add phase B. Heat at 40°C until all the solids have melted and thoroughly mix.
- Slowly add Phase B to Phase A while stirring with an overhead mixer, allowing the gel to recover between additions.
- Add Phase C and thoroughly mix.
